April 2015:	22 Weekdays	4 Saturdays	4 Sundays
April 2016:	21 Weekdays	5 Saturdays	4 Sundays

Sound Transit system-wide ridership increased by 724K, or 24.8%, compared to April 2015, and set a new all-time record for total monthly boardings. Despite one less weekday in April 2016, Sound Transit also set new all-time records for system-wide average weekday, Saturday, and Sunday boardings.

ST Express ridership decreased by 18K, or 1.1%, while average weekday boardings increased more than 1K, or 1.7%, compared to April 2015. The slight decline in total monthly boardings is likely a result of one less weekday in 2016.

Sounder ridership increased by 16K, or 5.1%, compared to last year, while average weekday boardings increased by more than 1K, or 9.0%. Monthly boardings increased on both the North and South lines, up 17.8% and 3.8%, respectively. Similarly, average weekday boardings also increased on both the North and South lines, up 18.2% and 8.1%, respectively.

Tacoma Link ridership decreased by 8K, or 9.0%, compared to April 2015.

Link ridership increased by 733K, or 79.4%, compared to the same period of 2015. Average weekday, Saturday, and Sunday boardings were up 78.3%, 107.9%, and 64.1%, respectively. Significant growth on Link was a result of the first full month of revenue service on the University Link extension. Six-minute peak frequencies employed in Q4 2015 also contributed to growth.

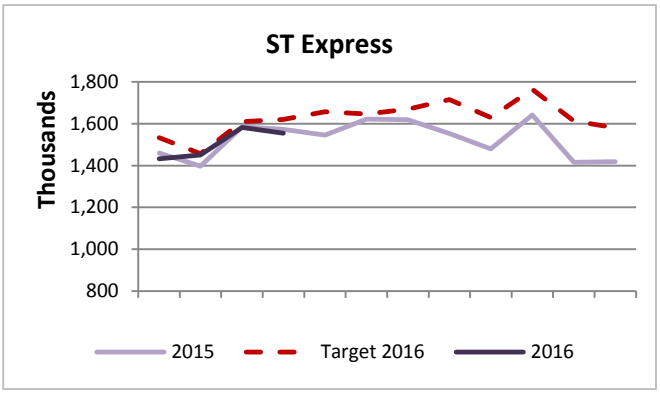

Paratransit services decreased 13.7% compared to April 2015, driven by eligibility changes implemented in 2015.

Monthly Ridership Trends by Mode

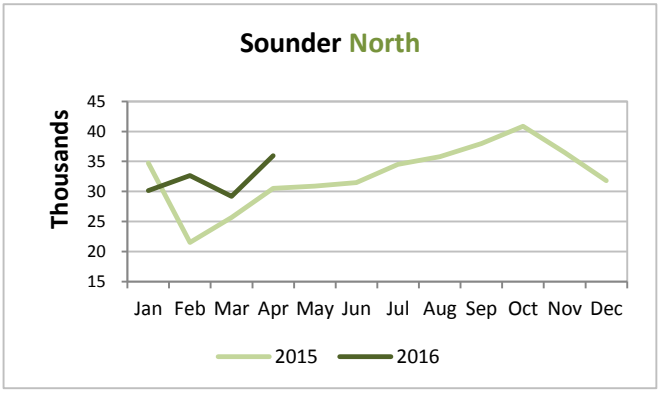

ST Express ridership decreased 1.1% compared to April 2015, while average weekday boardings increased by 1.7%.

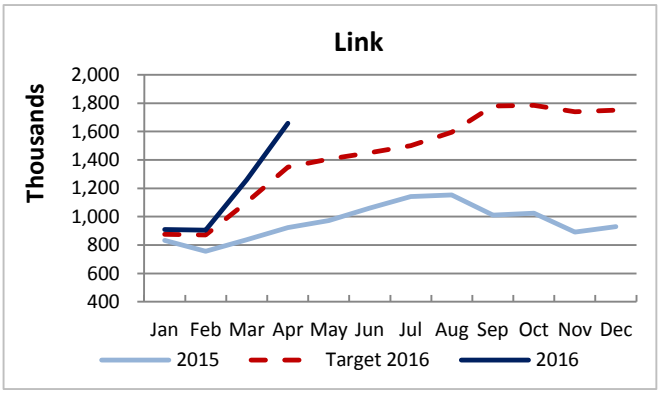

Sounder system-wide ridership increased by 5.1% compared to April 2015, and average weekday boardings increased by 9.0%. One fewer weekday in April contributed to smaller ridership gains.
