May 2015:	20 Weekdays	5 Saturdays	6 Sundays
May 2016:	21 Weekdays	4 Saturdays	6 Sundays

Sound Transit ridership increased by 909K, or 31.3%, compared to May 2015, due in part to an extra weekday and growth across all modes except Tacoma Link. For the second straight month, Sound Transit set new records for system-wide monthly ridership and system-wide average daily boardings.

ST Express ridership increased by 42K, or 2.7%, compared to May 2015, and average weekday boardings also increased by 2.7%. Route 542 experienced the largest increase in ridership during the month, registering a 30% increase in average weekday boardings, largely due to the addition of midday service implemented in March.

Sounder ridership increased by 65K, or 22.5%, compared to the same period last year, and average weekday boardings increased by 17.2%. Monthly boardings were up 34% on the North line and 21% on the South line. Average weekday boardings were up 29% on the North, and 15.9% on the South. The Alaskan Way Viaduct closure, during the first week of May, contributed to increased ridership on both lines.

Tacoma Link ridership decreased by 5K, or 5.3%, compared to May 2015, and average weekday boardings were down by 4%.

Link ridership increased by 805K or 82.9%, compared to last year, and average weekday, Saturday, and Sunday boardings were up 82.4%, 80.2%, and 73.4%, respectively. Ridership gains were a result of the opening of the University Link extension in Q1 2016 and the implementation of 6-minute peak frequencies in Q4 2015.

Paratransit services increased by 1K, or 2.6%, compared to May 2015. The increase is primarily due to the recently expanded service area resulting from the launch of University Link revenue service.
