|---|---|---|---|---|---|---|
| **September 2017:** | 20 | Weekdays | 5 | Saturdays | 5 | Sundays |
| **September 2018:** | 19 | Weekdays | 5 | Saturdays | 6 | Sundays |

***Sound Transit*** ridership decreased slightly by 32.3K, or 0.8%, compared to September of last year due to one less weekday. System wide average weekday boardings increased by 1.5% with Sounder commuter rail, Link light rail, and Paratransit services registering increases.

***ST Express*** Express ridership decreased by 60.1K, or 4.0%, compared to the same time last year. Routes 512 (Everett - Lynnwood - Seattle) and 578 (Seattle - Puyallup) led the way in ridership growth during the month with route 512 adding 274 average daily riders and route 578 adding 193. Ridership increases on these routes seem to indicate increased ridership demand during off-peak hours.

***Sounder*** ridership decreased by 15.8K, or 4.4%, compared to September 2017 due to one less weekday. September marks the one-year anniversary of implementing two new Sounder South line round trips and additional capacity on the mid-day train in the September 2017 service change. Average weekday boardings on Sounder remained essentially flat compared to September of last year with daily boardings on the North line decreasing by 103 passengers, or 5.8%, and daily boardings increasing on the South line by 143 passengers, or 0.9%.

***Tacoma Link*** ridership decreased by 12.8K, or 16.7%, during the month of September due to construction activity in downtown Tacoma and one less weekday compared to 2017. Average weekday boardings decreased by 13.7% but increased compared to the previous month.

***Link*** ridership increased by 56.2K, or 2.8%, compared to the same period last year. Average weekday and Saturday boardings increased by 4.5% and 13.5%, respectively. Average Sunday boardings decreased by 7.0% due to less Sunday special events downtown compared to the previous year.

***Paratransit*** services increased by 5.8% compared to September 2017. The increase in paratransit ridership is attributed to the increased ridership on Link and additional customers requesting access to the Link system.

Excluding leased lots for East Link construction mitigation, a total of 14,874 parking stalls are available at 29 locations in Pierce, Snohomish, and King County. Parking utilization for September this year was higher than last year at 96%. There was a reduction of 200 parking stalls at Tacoma Dome Station due to a mid-life maintenance project.

System-wide utilization for both Snohomish and King County remained flat, while Pierce county parking utilization increased by 2.8%. Many of our parking facilities continue to be at or near capacity.

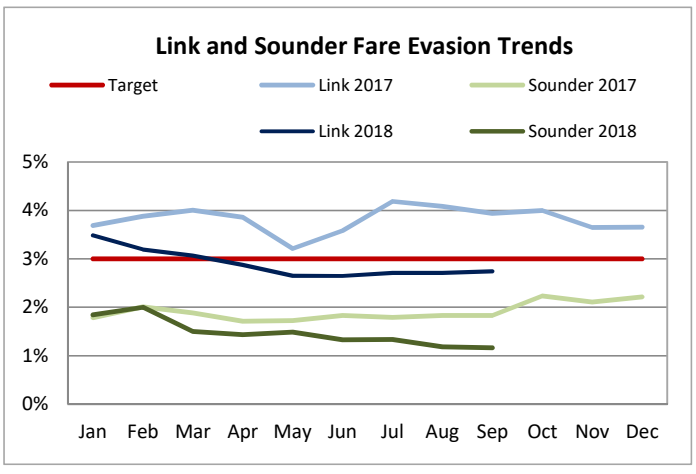

**Target: 95%** **ST Elevators: 99.2%**

**Link Elevators: 98.3%** **Link Escalators: 94.9%**

Targeted availability is set at 95% to match contract standards.

Sound Transit managed conveyances at ST Express and Sounder stations consistently perform above the 95% target availability and achieved 99.2% during the month.

KCM managed Link elevators were above the targeted availability levels at 98.3% while escalators were slightly below target at 94.9% due to scheduled maintenances.

**Target: 3%** **Sounder: 1.2%** **Link: 2.7%**

Fare Evasion on Link was 2.7%, lower than the same period last year and within the 3% targeted range.

Sounder fare evasion was 1.2% in September, which was slightly lower than the same period last year.

Overall, combined fare evasion was 2.4%, within the targeted range. Fare inspection was above the targeted inspection rate of 8.0% at 9.5% in September.

[3] Headways are scheduled intervals between trips.

[4] An accident in which the operating employee(s) failed to do everything reasonable to prevent the accident.

[5] YTD Preventable accidents per 100,000 miles is based on a rolling 12-month period of data.

[6] Farebox recovery is calculated as farebox revenues divided by total modal operating expenses based on a rolling 12-month period of data.
To better align with Federal Transit Administration – National Transit Database (NTD) reporting, Operating Leases costs are no longer included in Operating Expenses for the purpose of the Sound Transit Farebox Recovery calculations.
Starting with the 2017 Fare Revenue Annual Report, the agency has restated 2015 and 2016 Operating Expenses to reflect this change.

[7] Year end target. For farebox recovery, the target reflects fare policy board minimums.
