October 2017:	22	Weekdays	4	Saturdays	5	Sundays
October 2018:	23	Weekdays	4	Saturdays	4	Sundays

Sound Transit ridership increased by 180.6K, or 4.3%, partly due to one additional weekday compared to last year. Average weekday boardings increased by 3.2% compared to October 2017 with Sounder, Link, and Paratransit registering increases.

ST Express ridership increased by 36.3K, or 2.3%, compared to the same time last year due to one additional weekday. Route 512 (Everett - Lynnwood - Seattle) continued to lead the way in ridership growth during the month adding 133 average daily riders compared to October 2017. Ridership gains on this route indicate increased ridership demand during off-peak hours.

Sounder ridership increased by 26.5K, or 6.4%, compared to October 2017. Average weekday boardings on Sounder increased overall by 3.1% compared to the same period last year. Average weekday boardings decreased on the North line by 42 daily riders, or 2.3%, but increased on the South line by 612 daily riders, or 3.7%.

Tacoma Link ridership decreased by 4.7K, or 5.0%, during the month of October. Average weekday, Saturday, and Sunday boardings decreased due to fewer special events in downtown Tacoma compared to the previous year. The Tacoma Dome reopened in mid-October after being closed over the summer for renovations. Ridership is expected to improve in November.

Link ridership increased by 121.8K, or 6.0%, compared to the same period last year. Average weekday boardings also increased by 7.6%; however, average weekend boardings decreased due to fewer special events in downtown compared to 2017.

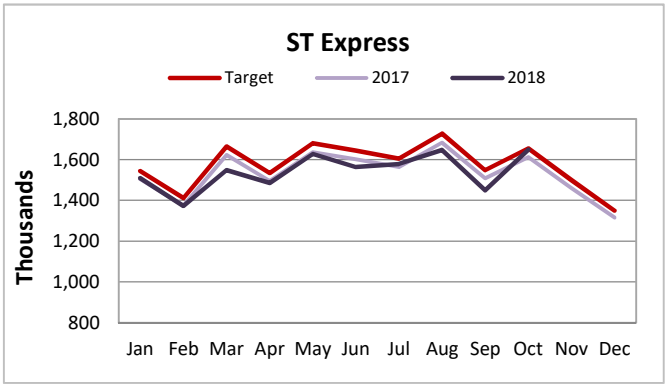

Paratransit services increased by 12.4% compared to October 2017. The increase in paratransit ridership is attributed to the increased demand to access the Link system.

ST Express

Highlights

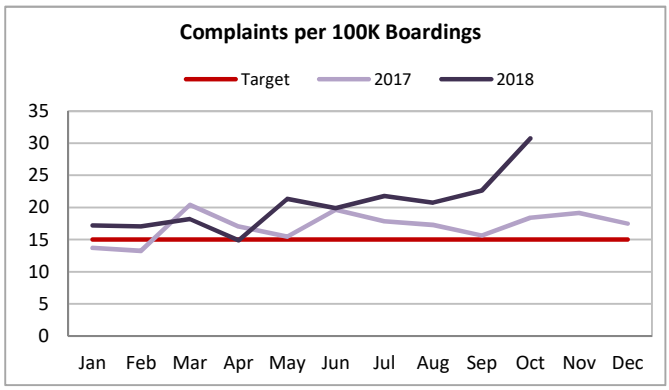

- ST Express on-time performance was above the target at 86.2% for October and year-to-date.
- Passengers per trips was slightly higher than last month but lower versus target at 39.0 in October.
- Customer complaints per 100K boardings missed the target at 30.7 mainly due to September service change. Many complaints were a result of the Rainer Freeway Station closure due to East Link construction.
- Preventable accidents per 100K miles met the target at 0.67 based on a 12-month rolling average.

Sounder Commuter Rail

Highlights

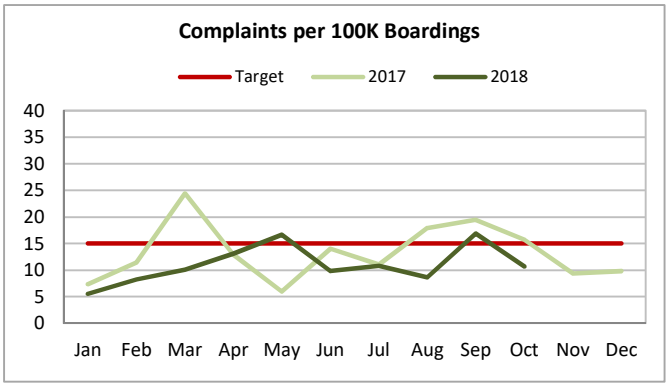

- Passengers per trip was above the target at 556.5 for the month.
- Sounder on-time performance was below the target at 94.2% for the month. Year-to-date performance was impacted by a BNSF South line tie replacement and undercutting program between Tukwila and Seattle, and freight interference in February.
- Percentage of scheduled trips operated was above the target at 99.9% for the month.

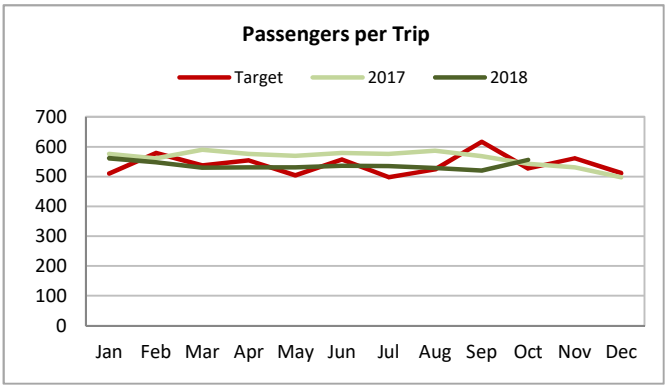

Target: 95.0% **Oct 2018: 94.2%** **YTD 2018: 92.9%**

Tacoma Link

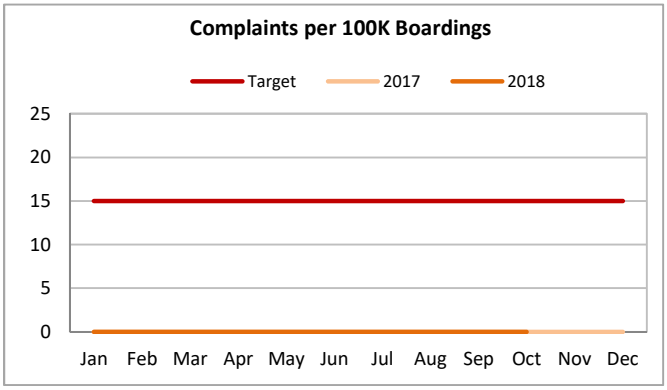

Highlights

- Tacoma Link on-time performance was better than the target at 99.8% in October.
- Passengers per trip was higher than last month at 20.9 in October but lower versus the same period last year due to fewer special events in downtown Tacoma.
- There were no complaints related to Tacoma Link in the month.
- Preventable accidents per 100K miles is based on a 12-month rolling average. There was one preventable accident last June, but there have been none this past year, bringing the rolling average back to zero.

Sound Transit Operations
October 2018 Service Performance Report

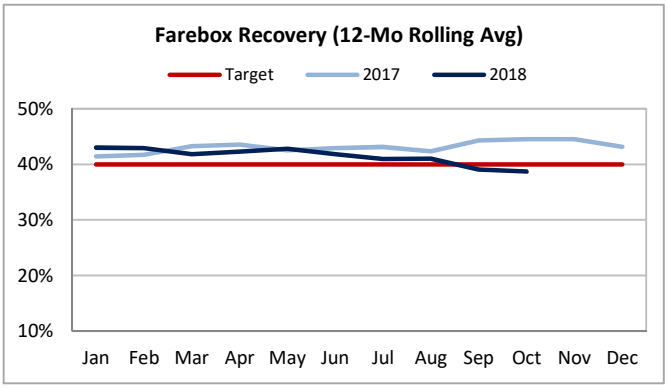

Link

Highlights

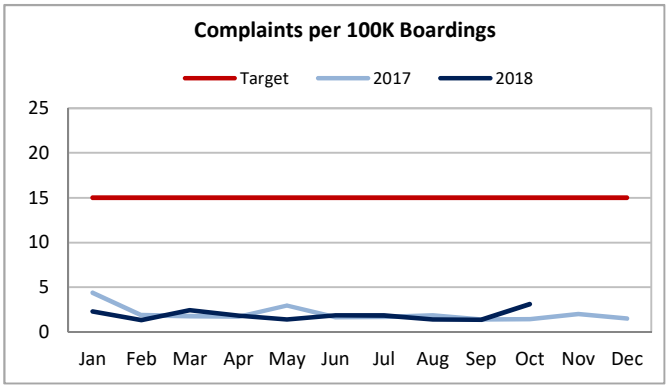

- Percentage of scheduled trips operated was under the target at 95.4% for the month mainly due to the temporary service suspension between UW and Capitol Hill stations caused by a power outage on October 2 and track replacement work that occurred in early October.
- Passengers per trip in October was 5.6% under target.
- Link has had no preventable accidents since November 2016.
- Farebox Recovery was under target at 38.7% in October as the agency and Link ramp up to support takeover of Downtown Seattle Transit Tunnel (DSTT) and ST2 expansion projects; costs will precede the benefits of increases in the fare revenues.

Excluding leased lots for East Link construction mitigation, a total of 14,874 parking stalls are available at 29 locations in Pierce, Snohomish, and King County. Parking utilization for October this year was slightly higher than last year at 97%. There is a temporary closure of 200 parking stalls at Tacoma Dome Station garage while the station undergoes mid-life maintenance through March 2019.

System-wide utilization for Pierce and Snohomish County increased by 2.3% and 0.7%, respectively, while King County utilization decreased by 1.4%. Many of our parking facilities continue to be at or near capacity.

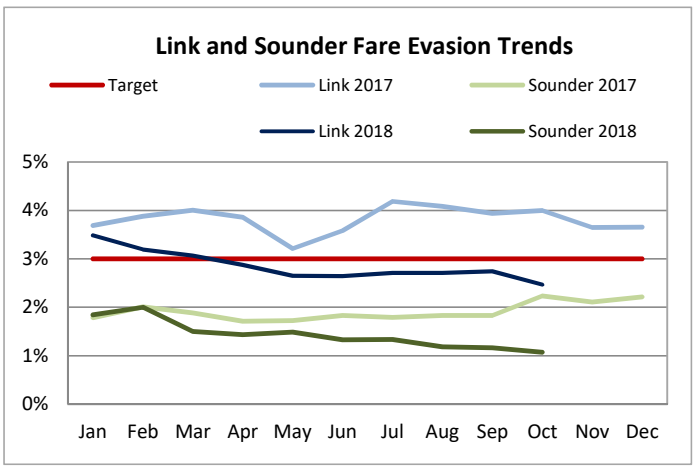

Target: 95% **ST Elevators: 99.1%**

Link Elevators: 99.2% **Link Escalators: 94.7%**

Targeted availability is set at 95% to match contract standards.

Sound Transit managed conveyances at ST Express and Sounder stations consistently perform above the 95% target availability and achieved 99.1% during the month.

KCM managed Link elevators were above the targeted availability levels at 99.2% while escalators were slightly below target at 94.7% due to scheduled maintenances.

Target: 3% **Sounder: 1.1%** **Link: 2.5%**

Fare evasion on Link was 2.5%, lower than the same period last year and within the 3% targeted range.

Sounder fare evasion was 1.1% in October, which was slightly lower than the same period last year.

Overall, combined fare evasion was 2.1%, within the targeted range. Fare inspection was above the targeted inspection rate of 8.0% at 10.1% in October.

[1] PMIs are preventive vehicle maintenance inspections. Link PMIs include Signals, Traction Power, LRV, Track, SCADA, and Facilities.
[2] Actual performance compared to the Budget standard-ST Express: >85%, Sounder: >95%, Link: >90%, Tacoma Link: >98.5%.
[3] Headways are scheduled intervals between trips.
[4] An accident in which the operating employee(s) failed to do everything reasonable to prevent the accident.
[5] YTD Preventable accidents per 100,000 miles is based on a rolling 12-month period of data.
[6] Farebox recovery is calculated as farebox revenues divided by total modal operating expenses based on a rolling 12-month period of data.
To better align with Federal Transit Administration – National Transit Database (NTD) reporting, Operating Leases costs are no longer included in Operating Expenses for the purpose of the Sound Transit Farebox Recovery calculations.
Starting with the 2017 Fare Revenue Annual Report, the agency has restated 2015 and 2016 Operating Expenses to reflect this change.
[7] Year end target. For farebox recovery, the target reflects fare policy board minimums.
